

OFFBOARDING GUIDE

Introduction

If you are reading this document, it means that you will soon end your OutSystems Experience. To guide you through your offboarding process we have compiled this step-by-step document with all the information you need to know to have a smooth offboarding process. Any questions that you have, you can contact your PSM or people@outsystems.com.

Step One – Prepare your exit

Expense Reports – If you have any expense reports to submit, please do it via [Expensify](#) as soon as possible before your last working day or termination date (otherwise you will lose access to Expensify). For any reimbursable work expenses that have not yet been submitted after the termination date, employees must submit a manual expense report sheet, along with proper receipts. Employees should contact people@outsystems.com to receive this spreadsheet.

Workday update – Please make sure you have your personal information in Workday up to date, especially personal mobile phone, personal email, and address, so we can have your contact information in the event that we need to contact you (ex: informing about stock options exercise window)

Recognize Results - If you have employees reporting to you, please complete the recognize results moment in [Outperform](#) before you leave.

Personal files in Google Drive - Don't forget to retrieve any personal documentation in Google Drive before you leave because the ownership of all your documentation will be assigned to your manager.

Step Two – TriNet Maintenance

Only applicable to employees hired prior to 2026

As our company transitions away from TriNet's PEO platform, your TriNet login and account access will remain active indefinitely. This means you'll still be able to sign in to TriNet after the transition to view or download past pay stubs, tax forms, and other employment records.

Please be sure to remember your login information, as this is where you will go to retrieve tax forms, prior pay stubs, and employment verifications.

Be sure to update TriNet with your current address and have your personal information up to date as this will be your source for tax documentation and employment verification. This is where all communication and checks will be delivered.

Please make sure you have your personal information in TriNet up to date, as this will be your source for tax documentation and employment verification.

On your last day of employment, you will receive a termination letter directly from TriNet

Step Three – Benefits

Health Insurance

If you are currently enrolled in benefits through OutSystems, some benefits, including your medical, dental, and vision, will remain active until the last day of the month of your termination date (I.e if your termination date is September 2nd, your health benefits will remain until September 30th.)

HealthEquity will send you a letter within a couple weeks of your termination regarding COBRA enrollment. You will have 60 days to enroll in COBRA.

Step Four – OutSystems Equity

This information sheet aims to provide summary information on what will happen to your OutSystems employee equity after you leave OutSystems. In most cases, the best place for you to find information about your equity will be by logging in to your account on our equity platform, [Shareworks](#).

Please also note that after leaving OutSystems, you will no longer have access to login to the firm's applications via single sign-on on the OS intranet site. With that in mind, the next time you want to log in to Shareworks and view the equity that OutSystems has granted you, you'll need to contact the Shareworks support team directly by calling one of the following numbers based on your location in order to obtain your login credentials. In this instance, you will need to contact Shareworks (and not OutSystems) directly because they will need to verify your identity through a series of questions before assisting you.

- North America - Call toll-free: 1 877 380 7793 - 8:00 a.m. to 8:00 p.m. (ET)
- Australia - Call toll-free: 1800 768 002 - 9:30 a.m. to 4:30 p.m. (AEDT)

- United Kingdom - Telephone: 0800 088 5912 - 8:00 a.m. to 6:00 p.m. (GMT)
- Hong Kong - Telephone: 800 906 061 - 8:00 a.m. to 6:00 p.m. (HKT)
- Other locations - Telephone: +1 403 515 3909

IMPORTANT: In order to ensure proper delivery of important notices regarding open exercise windows or other logistics related to your equity, you must update your personal information in [Workday](#) and provide a valid personal email address where you can be reached after your termination date. It is your responsibility to ensure your personal email address is up to date in [Shareworks](#) and [Workday](#) in order for OutSystems to be able to communicate with you in the future.

If you have questions regarding your equity please feel free to contact the Equity Administration team at OutSystems by emailing sop@outsystems.com.

Stock Options

In the event that you have any vested stock option awards at the time of your termination of employment from OutSystems, per the terms of and subject to our [Stock Option Extension Policy](#), you are eligible to participate in the next exercise window following your termination date. If you have 10 or more years of service at OutSystems as of your date of termination, you will be eligible to participate in the next three 3 exercise windows for stock options priced below EUR 13.85.

Please note that if you don't exercise your vested option according to the criteria above, your vested options will be forfeited.

For more information on the Stock Options Program or on the extension of the exercise period, please refer to the [SOP Frequently Asked Questions](#) and to the [Stock Option Extension Policy](#) respectively.

RSUs

If you **have** 3 years or more of service at OutSystems as of your date of termination:

In this case you will retain the portion of your RSU award that has met the time and service based vesting requirement. Any portion of your RSU award that has not met the time and service based requirement will be canceled as of your termination date.

If a liquidity event occurs within seven years of the grant date of your RSU award (which is the term of your award), then the portion of your RSU award that had met the time and service requirement will be converted into shares of OutSystems Ordinary Shares upon the liquidity event. If a liquidity event does not occur within this timeframe, the portion of your RSU award

that met the time and service based requirement will also be canceled on that seven-year anniversary of the date of grant.

As an illustrative example, Employee A was granted 4,000 RSUs on January 1, 2023. There are two vesting criteria, BOTH of which must be met in order for Employee A to receive the shares of OutSystems Ordinary Shares.

- 1) Time and service requirement
 - a) 1,000 shares will vest on January 1, 2024, then 250 shares on each March 1, June 1, September 1, and December 1 thereafter until January 1, 2027.
- 2) Liquidity event requirement (for example, IPO or acquisition)
 - a) As a reminder: this second trigger exists because if it did not, Employee A would immediately owe taxes on their 1,000 shares on January 1, 2024, and then on the 250 shares each quarter after that. Without the liquidity event, Employee A would not have a way to sell some of the RSUs to be able to pay the required tax.

Employee A has been with OutSystems for more than 3 years on their termination date of May 1, 2024. On that date, they will have met the time and service requirement for 1,250 RSUs. However, there has not been a liquidity event as of that date.

After termination, Employee A would continue to hold 1,250 RSUs. If there is a liquidity event prior to January 1, 2030 (7 years after the grant date, which is the term of the RSU), then at that time, the RSUs would become Ordinary Shares. Employee A would owe taxes on the fair market value of the shares at the time of the liquidity event.

If you do **not** have 3 years or more of service at OutSystems as of your date of termination all of your RSUs will be canceled upon termination regardless if they have met the service requirement or not.

Step Five – Exit Interview

If your termination was voluntary, when approaching your last working day, your PSM will approach you to schedule one last meeting with you.

Step Six – Deliver Company Assets

- If you are a remote employee, a return shipping label will be emailed to you by the digital team (to both your personal and work emails) requesting the return of all company assets you may have in your possession (ex: laptop, Ipad (if applicable), etc).
- If you are an office-based employee, please leave your OutSystems assets you may have in your possession (ex: laptop, Ipad (if applicable), etc) with either Digital or the office manager until your termination date

Step Seven – Final Payroll

You will receive your final payroll in accordance with your current state's payroll laws.

Any remaining PTO that has been accrued, but not used, will be included in your final pay stub.
